EXPERIENCE

DevOps Engineer

End-of-Studies Internship

Qim info

Feb. 2025 – Jun. 2025

- Implemented an observability solution to monitor containerized microservices.
- Set up automated CI/CD pipelines covering the entire development lifecycle.
- Integrated performance and security testing into the continuous delivery process.

Keywords: Jira, Confluence, Kubernetes, OpenTelemetry, Terraform, GCP, Helm, GitLab CI/CD, ArgoCD, Trivy, Falco, Prometheus, JMeter, OctoPerf, Loki, Grafana, Tempo, Mimir

DevOps Engineer

Internship

ProCAN

Jun. 2024 – Jul. 2024

- Developed a secure web application for container interaction and management.
- Automated infrastructure provisioning and integrated security tools.
- Implemented a continuous deployment process with real-time monitoring.

Keywords: Spring Boot, Maven, JSON Web Token, MySQL, Swagger, Angular, Docker, Kubernetes, Terraform, Azure, Jenkins, SonarQube, Trivy, ArgoCD, Helm, Prometheus, Grafana

DevOps Engineer

End-of-Year Project

REGIM Lab

Dec. 2023 – May 2024

- Co-developed a web and mobile platform in collaboration with psychotherapists from Hédi Chaker Hospital.
- Integrated a conversational chatbot and deployed it on a scalable infrastructure.

Keywords: Flutter, Firebase, OAuth 2.0, Git, GitHub, Flask, OpenAI API, Docker, Azure Kubernetes Service (AKS)

PROJECTS

Capstone DevOps Project - Coursera | Kanban, Flask, GitHub Actions, Docker, OpenShift, Tekton

- Developed RESTful APIs using **Test-Driven Development (TDD)** with Flask and Unittest.
- Containerized and deployed the application on **OpenShift** with end-to-end **CI/CD pipelines**.

AWS Infrastructure Automation | Docker Compose, Terraform, Ansible, IAM, VPC, EC2, S3, RDS, ECR, Jenkins

- Automated the deployment of a comprehensive AWS infrastructure utilizing **Terraform** and **Ansible**.
- Implemented a robust **CI/CD pipeline** to manage continuous build, testing, and deployment processes.

Deployment and Management of Microservices on Istio | Kubernetes, Istio, Kiali, Jaeger, ArgoCD, Grafana

- Deployed a microservices architecture on Kubernetes integrated with an **Istio service mesh**.
- Enhanced **system observability** by monitoring traffic patterns, latency, and service health.
